

# *Maternity & Family*

## *Pricing Guide*

*All you need to start planning your experience*

## *The Base Session*

No two sessions are ever the same, so it feels right that you should get a choice in the building of your experience.

Each session begins with a base booking price, and from there you can personalise with optional upgrades, keepsakes and extras to create an experience that feels like you.

## *Choose Your Experience*

Whether you're celebrating a new baby, documenting your growing family, recently engaged or planning to propose, capturing a maternity journey, marking a birthday milestone, gathering the extended family together before an event, or simply wanting photos just because - every experience fits into one of two session types.

Choose between a relaxed **30-minute session** or a slower-paced **60 minute session** with room to settle in and tell your story naturally.

# *The Sweet & Simple*

Turn your memories into art for your home

COMING SOON

**Fine Art Photo Album**

An heirloom that holds your memories in a way your camera roll never will

Thank you for considering me to document this chapter of your story. I know being in front of the camera can feel vulnerable, but my hope is that your session feels less like a photoshoot and more like a moment to slow down and connect with the people you love.

If you have any questions or aren't quite sure about something, please get in touch. I'm always happy to help.
